

What are Trade Preference Systems?

Trade preference systems around the world encourage companies in advanced economies to import products from developing regions with reduced or zero tariffs. These systems allow for tariff-free or reduced-tariff imports of a variety of products, including the vitamin and mineral premixes made by Innovita Nutrition.

Hassle-free Process

The importing process for your company is streamlined, with no additional steps, ensuring the timely and seamless import of goods at a 0% or reduced tariff rate. Innovita provides standard documentation and necessary paperwork for each importing country, ensuring a hassle-free process.

Quality and Sustainability

Trade preference systems are only offered to developing countries that comply with international conventions on fair labor practices, human rights, environmental and climate protection, and good governance. As an importing corporation, you are assured of receiving high-quality micronutrient products from Innovita without compromising your company's sustainability goals or manufacturing standards.

ADVANTAGES OF PARTNERING WITH INNOVITA

Tariffs Exemption/Reduction

Under these preference schemes, exemption from tariffs significantly reduces the overall cost of Innovita's products without sacrificing quality.

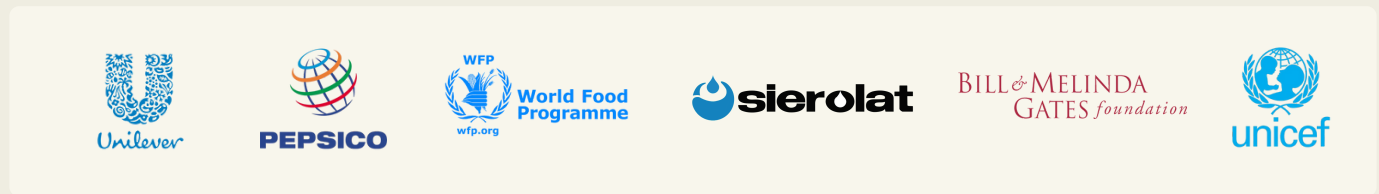

Rapid Manufacturing Turnaround

Innovita's state-of-the-art manufacturing and logistics systems ensure rapid production turnaround and reliable global delivery within 60 to 90 days—reducing lead times, warehousing needs, and shipping costs.
